

KUTCHMITRA HOME & DECOR AWARDS 2026

Website, Nomination Portal, Admin & Jury
Structure and Design Blueprint

Prepared for organisational understanding and approval

This document explains the proposed public website, applicant journey, admin workflow and jury experience. It is a functional/UX blueprint, not a final technical specification.

1. Project Purpose

The platform will combine a premium public awards website with a complete digital nomination and award-management workflow. It will support applicants, verification, administrators, jury members, shortlisting and public winner publication.

2. Platform Structure

- Public Website — award discovery, categories, eligibility, jury, dates, FAQs, winners and contact.
- Applicant Portal — registration, profile, nominations, drafts, uploads, submission and status.
- Admin Panel — dashboard, applications, verification, categories, jury, scoring, shortlist, winners, CMS, reports and audit.
- Jury Portal — assigned entries, project details, confidential scoring/comments and final evaluation.

3. Final Sitemap

- Public: Home, About, Categories, Category Detail, Eligibility & How to Nominate, Jury, Important Dates, FAQs, Winners, Contact, Register, Login.
- Applicant: Dashboard, Profile, My Nominations, Create Nomination, Continue Draft, View Submission, Notifications.
- Admin: Dashboard, Applications, Verification, Status, Categories, Questions, Upload Rules, Scoring, Jury, Shortlisting, Winners, CMS, Reports, Users/Roles, Audit Log.
- Jury: Dashboard, Assigned Entries, Entry Details, Evaluation, Submitted Evaluations.

4. Homepage Structure

- Hero with Kutchmitra Awards 2026 identity, premium architectural imagery and strong Nominate Now CTA.
- Award introduction and positioning.
- Categories preview.
- Why Nominate section.
- How It Works: Discover → Register → Nominate → Verification → Jury → Shortlist → Winner.
- Important dates.
- Jury preview.
- Winner preview after official publication.
- Final Nominate Now CTA and footer.

5. Award Categories

- Architect of the Year
- Best Luxury Residence
- Best Apartment Design
- Best Renovation Project
- Best Sustainable Home
- Ultra-Luxury Residential Project of the Year
- Interior Designer of the Year
- Emerging Designer
- Best Compact Home
- Best Smart Home
- Best Themed Project of the Year
- Luxury Villa Project of the Year

Categories are configuration, not hard-coded content. Admin can add, edit, activate/deactivate, reorder and configure eligibility, questions, uploads and scoring.

6. Applicant Journey

Public website → Register/Login → Applicant Dashboard → Select Category → seven-step nomination wizard → uploads → preview → declaration → submit → nomination ID → verification.

7. Seven-Step Nomination Wizard

- Applicant Profile
- Select Category
- Project / Professional Details
- Design / Project Questionnaire
- Upload
- Preview
- Declaration & Submit

8. Applicant Dashboard

- Profile
- My Nominations
- Drafts
- Submitted Applications
- Nomination ID
- Status
- Continue Draft
- View Submission
- Notifications

9. Upload System

Cover images, project photos, floor plans/drawings, 3D views/renderings, portfolios and supporting documents. The system validates files, shows progress/preview, supports replacement before submission and keeps restricted files private.

10. Admin Panel

- Dashboard KPIs and charts.
- Application search, filter, sort and management.
- Verification: eligible, clarification required, rejected/disqualified and internal notes.
- Category/question/upload-rule configuration.
- Jury member management and assignment.
- Configurable scoring criteria and weights.
- Shortlisting and decision locking.
- Winner selection and publication.
- CMS for public content, dates, FAQs, jury profiles, alerts and winner profiles.
- Reports and CSV/Excel exports.
- Users/roles and audit log.

11. Jury Portal

- Secure role-based login.
- Assigned entries only.
- Entry/project details.
- Configurable scoring criteria and numeric scale.
- Confidential comments.
- Save progress.
- Final submission locks the evaluation.
- No access to other jurors' scores/comments.

12. Verification & Status Flow

Draft → Submitted → Under Verification → Eligible → Jury Review → Shortlisted → Winner. Additional states include Clarification Required and Rejected/Disqualified.

13. Shortlisting & Winners

Jury Evaluation → Review Scores → Shortlist → Lock Shortlist → Select Winner → Create Winner Profile → Publish.

14. Notifications

- Registration and verification
- Nomination submitted and acknowledgement
- Clarification/status updates
- Eligible
- Shortlisted
- Winner notification

15. Reports

- All nominations
- Category-wise
- City/state-wise
- Pending verification
- Shortlisted
- Restricted jury scores
- Winners
- CSV/Excel export; optional PDF

16. Security & Access

- HTTPS
- Secure authentication
- Role-based access
- Database row-level security
- Secure file access
- Rate limiting/CAPTCHA where required
- SQL injection/XSS/CSRF/brute-force/IDOR protection
- Audit logs
- Privacy/consent
- Backup/recovery process

17. Future Award Editions

The platform is designed as a reusable award-management system. A future edition should be created by configuration — categories, questions, scoring, dates, jury and winners — rather than rebuilding the core application.

18. Responsive Experience

- Desktop, laptop, tablet and mobile.
- Mobile-first nomination wizard and uploads.
- Responsive admin tables and jury evaluation.
- Touch-friendly controls.

- Accessible typography and labels.

19. Visual Direction

- Premium, editorial, architectural, modern, aspirational and trustworthy.
- Deep navy/deep blue, gold accents, white/warm neutrals.
- Large project imagery, editorial grids, clean cards and subtle motion.
- Original Kutchmitra identity; reference sites are for journey/information hierarchy only.

20. Client Confirmation Required

- Final award description and category wording.
- Eligibility rules and nomination instructions.
- Important dates.
- Final scoring criteria/weights.
- Jury members and profiles.
- Nomination fee/payment decision, if any.
- Terms, privacy and contact details.
- Winner publication rules.
- Notification wording.
- Final logos, colors, photographs and brand assets.

21. Final Implementation Sequence

- 1. Project foundation
- 2. Database/schema
- 3. Authentication & roles
- 4. Admin foundation
- 5. Category/question configuration
- 6. Applicant dashboard
- 7. Nomination wizard
- 8. File uploads
- 9. Verification workflow
- 10. Jury portal
- 11. Shortlisting & winners
- 12. Public website
- 13. Notifications
- 14. Reports
- 15. Security, testing and deployment

Final Principle

Do not ask the AI coding agent to build the whole project in one prompt. Build one module, test it, approve it, then move to the next module.
